Status of the Application

Receipt is acknowledged of a responsive amendment dated 14 December 2010.

Election/Restriction

Any restriction requirement made between inventions in the present application that requires all the limitations of the present allowable claims is hereby withdrawn. Please note, however, in view of the withdrawal of the restriction requirement, if any claim presented in a continuing application includes all the limitations of a claim that is allowable in a parent application, such claim may be subject to a double patenting rejection over the claims of the parent application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Please note that all previous species elections are hereby withdrawn in view of the fact that the art search was extended to all species and no prior art was found that anticipates or renders obvious the instant claims in accordance with MPEP § 803.02. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no

longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claims 10 and 13 are rejoined.
